### Space Saving & Zero Gravity:

Advanced space saving technology with forward sliding mechanism allows gentle transition and requires 20CM off from the wall. Auto zero gravity position is performed by one simple touch to achieve perfect massage position.

### Automatic Body Scanning:

Computer scanning include height scanning, shoulder detection and spine detection. Smart body scan technology scans your body to detect your body size for individual custom fit massage.

### SL Track :

Combined with human engineering and studied super long“SL” shape space curved rail technology, Massage distance is 130cm, makes you enjoy personal massage from the head to the leg, helps to maintain the human body vertebra “S” shaped curve, achieves relaxing the spine and relieve tense muscles.

### Full Body Massage:

10 kinds of intelligent massage modes are preset, so that you can have quick and convenient whole body massage. Provide personalized massage settings, Use the remote to set rollers and airbags on your preferred speed and strength (3 levels) to target your desired spots.
